

Bridge Loans

Help your clients buy a new property before selling their existing property

This program is designed for borrowers who desire to purchase a new property using equity from an existing property that is listed for sale. These loans are usually secured by a second mortgage on the existing property and a first mortgage on the purchase property. A typical situation is where the buyer wants to quickly secure the purchase property or where the seller is unwilling to consider offers with sales contingencies.

Benefits

- Provides the borrower with the extra time and flexibility to sell their existing property
- Allows the borrower to act quickly to take advantage of bargains in the real estate market or in securing their dream property
- Interest-only payments keep payments affordable
- No prepayment penalty

Unusual Situations

- 1031 Reverse Exchange
- Entity on Title or on the Note - LLC, Corporation, Partnership, Trust all accepted with a Personal Guarantor
- With sufficient equity, the borrower can pull additional cash out to establish a debt service account to pay partial or full payments until the existing property is sold, easing the financial stress of carrying two mortgaged properties
- With sufficient equity, the borrower can finance 100% of the purchase property and not have to use cash out-of-pocket for a down payment
